

## East Ayton Primary School

### Sports Premium Strategy 2018

#### Funding

East Ayton Primary School receive a Sports Premium grant of £17 700 for the academic year 2017/18.

#### How the money will be spent:

##### Sports Coach

This year the grant will be spent employing a Sports Coach for 1 and 1/2 days/week at a cost of £1,230/week; £14 760/year. The coach delivers additional PE teaching to all classes in school. During the additional  $\frac{1}{2}$  day he will work this year he will focus on the outdoor and adventurous activity aspect of the PE curriculum, incorporating our Forest Schools area and opportunities offered by our proximity to Forge Valley.

##### Swimming

We are currently reviewing our swimming provision in school. In previous years we have focused our swimming provision on one year group. With the additional Sports Premium funding we are currently looking at the possibility of each year group having swimming provision for a shorter period. The swimming tuition and transport will account for the remaining £3000.

#### The effect of the Sports Premium on pupils

##### Sports Coach

All children in school benefit from the Sports Premium spending because the coach works with all classes. In addition, the coach runs a variety of sports clubs at lunchtime and at the end of the day; depending on the time of year, this includes tag rugby, athletics and gymnastics.

#### How we make the improvement sustainable

When the sports coach is teaching staff members are able to watch and add to their own knowledge and ability, enhancing the capacity of school to deliver high quality PE teaching.
