

To Class 4,

It was lovely hearing from the class last week when we made the phone calls home. We were delighted to hear that you have been enjoying the Vikings. From the Viking poems you have wrote to your Viking portraits. Your work sounds fantastic. Keep up the good work.

English

This week in English, we would like you to imagine that you are a Viking. Vikings were very good at trading. They sold lots of different items including honey, wheat, wool and wood. This week see if you can create a leaflet to advertise what you have to trade. Try to describe the different items you are prepared to trade. You will need to make sure that your leaflet is eye-catching so consider how you can grab people's attention.

Before you start your leaflet, you may need to research what Vikings looked to sell. We have put a link below to help you.

<https://www.bbc.co.uk/bitesize/topics/ztyr9j6/articles/zw3qmp3>

This is an example of a leaflet. Remember to consider your headings and subheadings, font size, use of pictures and colour and the quality of your information.

Geography

As you may have found out the Vikings were excellent travellers and explorers. The Viking Ships reached Britain, France, Spain, Italy and North Africa. This week we would like you to identify the countries that they visited on the world map. Try to colour and label the correct countries that they travelled too.

Remember to identify the different continents too including Europe, Asia, Africa and South America.

To help you with this activity there is an outline of the world map that you can access from the link below.

<https://www.allbusinesstemplates.com/template/SULKO/world-map-outline/>

Maths

This week in Maths, your theme is multiplication and division. The questions on the worksheets will test your knowledge of your times tables. When you are dividing remember you can use your knowledge of the inverse and related facts to help you. For example:

1. $4 \times 5 = 20$

2. $6 \times 6 = 36$

20 divided by 5 = 4

36 divided by 6 = 6

To access the worksheets on multiplication and division please use the link below.

Reading

We hope you have managed to find lots of excellent stories over the last few weeks. If you are looking to find a new book remember you can use the link provided below.

Other Home Learning Ideas

Keep a Diary - Write a paragraph every day about something you have done. Try to make it as interesting as possible.

Puppet Show - Make stick puppets or sock puppets of characters in your favourite story. Use them to put on a puppet show for someone you live with.

Obstacle Course - Using objects from around the house or in the garden, set up an obstacle course. Challenge your family to see who can complete it in the shortest time.

Be a Nature Spotter - Start a nature survey. Jot down how many different birds, flowers or insects you can spot outside. Record your results in a tally chart.

Make a Story Sack - Choose a favourite book and collect some items in a bag that have something to do with the book. Can someone else guess the book based on the items you have collected?

Get Creative with Words - Write a poem, song or rap about something you enjoy. Perhaps, you could change the words to a popular song or write an acrostic poem about your pet.

Make a Nature Collage - Collect natural objects found outside, such as leaves, twigs, pine cones and flowers. Create a scene by using them to make a collage.

We hope you enjoy this week's activities.

As always, take care and stay safe.

Mrs Monks and Mr Lowe.
