

Monday 22nd June

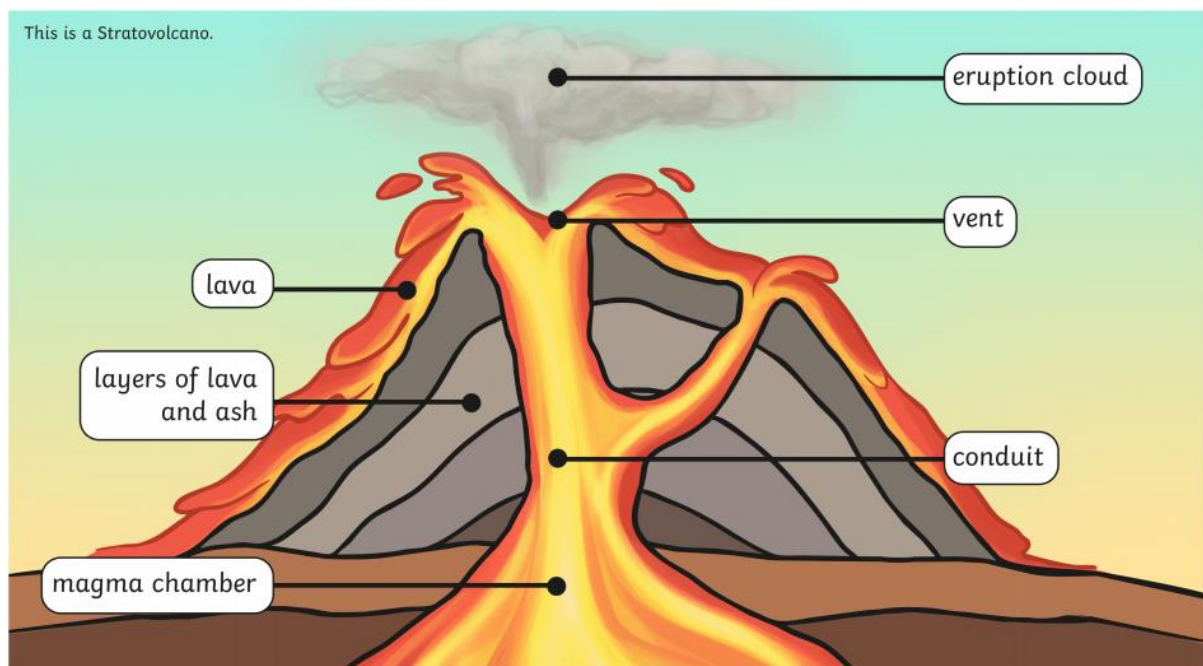

Dear Year 3,

It was lovely speaking to some of you this week and finding out what you've been getting up to. If I didn't get the chance to speak to you then I hope you know that I am thinking of you and am sure you are doing some wonderful things.

Listed below are some suggestions for activities that you can complete at home this week.

### Topic

Here is a diagram of a volcano, like one you might find in Japan!

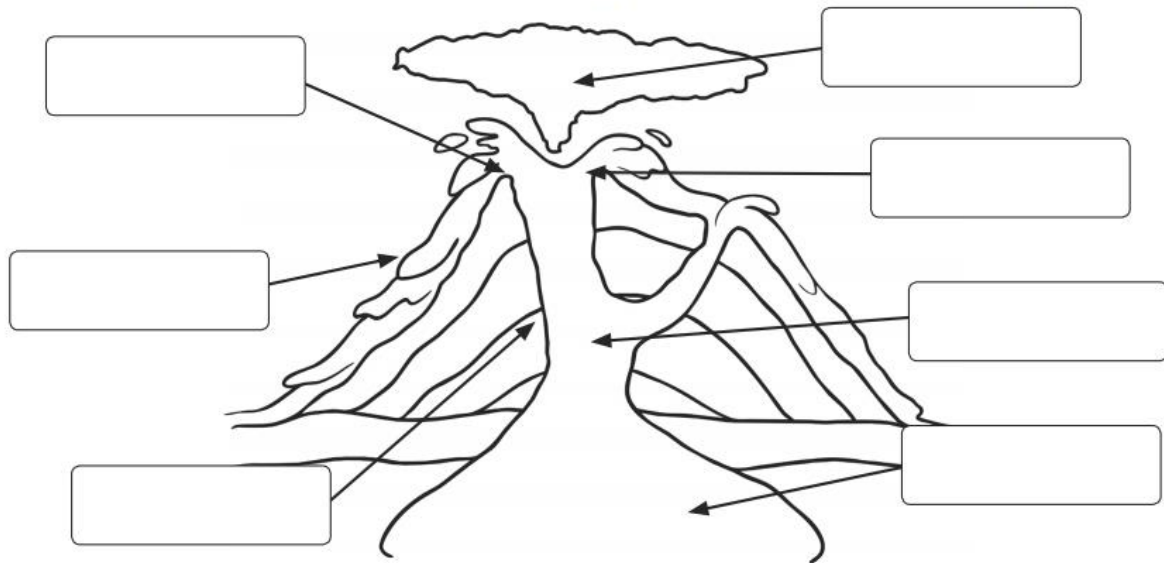

You can either print out the diagram below or draw and label your own volcano.

**EXTENSION:** If you would like to find out what each of the parts of the volcano do, you can create your own vocabulary sheet, labelling the parts of the volcano and their purpose.

Monday 22nd June

## Volcanoes Labelling Activity

Look at this diagram of the inside of a volcano. Label the diagram with the missing words from the bottom of the sheet.

### English

You have travelled to Japan to see the Olympics this year! I would like you to send a postcard home to your family telling them what you have been doing and how you feel.

(If you have a printer, you can use the template at the end of this document).

You will need:

- An address of the person you are sending your postcard to. Ask an adult for your home address and how you would write this on the postcard.
- To have the name of who you are sending it to. E.g. 'To Mum', 'To Dad', 'To Ben' at the beginning.
- To have your name. E.g. 'from Miss Blakeley', at the end.
- Include details telling the person what you have been doing.
- Ask some questions about what they've been getting up to.
- Include some expanded noun phrases and good adjectives in your description.

### Maths

In this week's maths challenge grid you will find something we haven't yet covered in Year 3. A 2D shape is symmetrical if a line can be drawn through it so that either side of the line looks exactly the same.

Look at the shape. If you folded it on the line, would the shape be equal on each side?

Menu
Week 1 Wednesday

### Place Value

Use the correct symbol to compare these numbers:

508 580

Reveal answer

### Problem Solving

Find three different ways to complete this part whole model.

**+ and -**

$264 + 6 =$ 
Reveal answer

$256 - 8 =$ 
Reveal answer

**x and ÷**

$4 \times 3 =$ 
Reveal answer

$15 \div 3 =$ 
Reveal answer

### Reasoning

I have drawn a line of symmetry on this hexagon.

Is Henry correct?

**Explain why.**

### Art/Design

Japan can be a beautiful place. Their buildings have a wooden style, are usually elevated off the ground and have tiled or thatched roofs. Japan is also well known for its cherry blossom trees.

Have a go at drawing or painting your own Japanese inspired landscape. See examples below.

Monday 22nd June

I hope you all have another great week and remember to send pictures of you working to @Eastayton\_sch so I can see what you are all getting up to.

Stay safe and keep on smiling!

Kindest regards,

Miss Blakeley.
