

To Class 4,

We cannot believe how quickly this year has gone. This week would have been your last week in Class 4 and we are so proud of all the hard work you have put in. Your new class teacher is in for a treat in September.

Literacy

As this is your final week, we would like you to do a recount on your experience in Class 4. We know you have missed out on some amazing things in school this term but remember all the fantastic things we have done too. You could include the 'Grow a Pound' event, going to the Spa to see a live orchestra, attending your favourite clubs or representing the school through sport or the choir. Remember a recount is written in the past tense because it has already happened.

We would be impressed if you could include at least 5 of your memories from Class 4 in your recount. Try to describe these memories in detail. If somebody was to pick up your writing they should be able to imagine that they were there.

Here are some tips to help you write your recount based on Class 4.

Maths

This week in Maths we would like you to explore fractions. Attached below is a link for you to use which allows you to access lots of different worksheets. See if you can give some of them a go.

Reading

We hope you are enjoying the free eBook library. There are lots of books to choose from. We are sure you will find some that interest you.

PE

As some of you may know the Olympics was supposed to be taking place in Tokyo this year. We would like you to research how the Ancient Olympics compares to the Modern Olympics. When you are doing this, explore possible similarities and differences. Try to be creative with how you present this. You may consider showing your findings using technology for example through a presentation.

Some themes to look into are the events that are held, spectators, emergence of new activities and who competes.

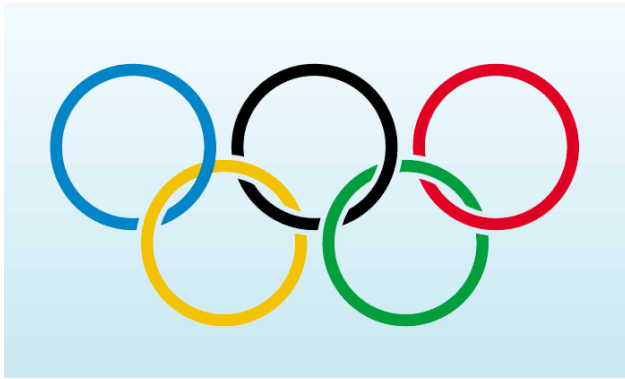

This is an example of how you could present your findings when comparing Ancient Olympics with Modern Day Olympics.

Art

Continuing with the theme of the Olympics, this week in Art we would like you to get creative. Our challenge for you this week is see if you can draw a new design for an Olympic games medal. Also, we would like you to redesign the Olympic games logo. Try to be creative with your designs.

Maybe you could bring your medal design to life and host your own medal ceremony with family at home. If you do this, make sure you take lots of photos.

This is the Olympic games logo. Try to design a new one and put your own stamp on it.

Whilst we haven't been together for a while now we would just like to thank you for being an amazing class. We hope you have an amazing summer and we can't wait to see you all in September.

Have fun, take care and stay safe.

Mr Lowe and Mrs Monks.
