

What do different people believe about God?

This half term,
we will be investigating
what different religions
believe about God.

Key question:

What do I think about believing in God?

Lesson Objective:

To think of different ways to describe God.

To begin, I want you to think about your own ideas and beliefs about God. Can you discuss them with another person?

Can you draw a picture of what
you think God might be like?

Write words around your picture
that describes God.

Read the following sentences that some children have written about what they think God is like.

God is like a soft, red, jumper because I think God is cuddly.

If God was weather, I think he would be lightning, because I think God is impressive and powerful.

If God was an animal, I think he would be a unicorn because it's a nice idea but not real.

If God were a vehicle, it would be a huge truck because it can go anywhere and carry anything.

Now write some sentences of your own that describe what you think God is like.

If God were ... then it would be ... because...

You could use the following suggestions to help you.

If God were an animal, then he would be ...

If God were a food, then he would be ...

If God were a drink, then he would be...

If God were a sound, then he would be ...

If God were a colour, then he would be ...

I'm looking forward to seeing your ideas
about God.

Next week, we will be finding out what
Christians believe about God.
