# Subtraction

- Can you find the total amount by subtracting the smallest number from the biggest number.

1 3  
2

Create your own subtraction number sentence

3 1  
2

The image shows a subtraction template. It consists of three large, rounded rectangular boxes. The first box is outlined in red, the second in green, and the third in purple. A yellow minus sign is positioned between the first and second boxes, and a blue equals sign is between the second and third boxes. Above the first box are the numbers 1 and 3, with a 2 below them. Above the third box are the numbers 3 and 1, with a 2 below them. The text 'Create your own subtraction number sentence' is written in orange between the first and second boxes.
