

Tuesday 13th July 2021

Lesson Objective: To investigate the way that shadows change.

★ Success Criteria ★		Me	Miss B
1	I can understand how a shadow is formed and can be changed		
2	I can plan and set up an investigation about the way shadows change size.		
3	I can observe patterns in the way shadows change size.		
Knowledge and skills	Knowledge: To find patterns in the way that the size of shadows change Skills: Setting up simple practical enquiries, comparative and fair tests. Recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables		

My experiment

Draw a picture of your experiment below

Explain what you did in your experiment

What I notice

Complete the sentences:

When I move the puppet closer to the ground, the shadow

When I move the puppet further away from the ground, the shadow
