

## Nursery

8<sup>th</sup> November 2021

Hello everyone!

This week in nursery we are enjoying the story of 'Whatever Next' by Jill Murphy. It's all about a little bear who has an adventure to the moon and back all before bedtime. Wow, Whatever Next!

Listen to the story by clicking this link: [Whatever Next! Stories read aloud - YouTube](#)

After reading the story we are going to make junk box model rockets. Maybe you could make one at home? We will also be taking our own bears on an adventure in their very own rockets. I wonder where our adventures will take us.

We will be drawing around lots of different 2d shapes to create our own rockets too. Maybe you could draw or build a rocket, you might have some bricks at home that you could use, or you might like to use pencils and felt pens to draw a rocket.

I hope you have lots of fun and adventures with your rockets!

From Mrs Glenwright
