How to Make a Paper Aeroplane

1

You will need a piece of A4-sized paper.

2

Make a line in the centre by folding the paper in half longways then opening it out flat.

3

Fold in two of the corners so they meet at the centre fold.

4

Fold the outer edges in again to meet at the centre fold.

5

Turn the paper over and then fold it in half in the middle.

6

Fold down the wings on each side so that they meet with the bottom of the plane.

7

Your plane is ready to fly! How far can you make it go?
