

Class One Spring Term

Happy New Year to you all. I hope that you've had a wonderful Christmas and a super rest, ready for a busy and exciting term.

In English, this term, we will look at letters, diaries and recounts and will retell the events of 1666 and the Great Fire of London. We will all be working hard at correctly forming and sizing all letters and applying the phonics that we have been taught in all our spellings.

In Maths, we will concentrate on place value within 10 and 20 as well as addition and subtraction, measures, volume and weight. Our history topic is very exciting and will see us learning all about the The Great Fire of London, hopefully with a visit by the Fire brigade. In Science, we will discover all the signs of Spring and will find out how the length of daylight alters throughout the year. In Computing, we will be movie makers and will attempt to make motion pictures, using all manner of devices.

There will be lots of speaking in French to learn how to tell people our name and age as well as being able to count to 10 and to know the French words for basic colours. Our music work will see us learning with Ernie, from the Stephen Joseph Theatre, who will teach us about rhythm, beat and how to use a range of instruments. In Religious studies, we will discover the sacred places for Muslim, Jewish, Christian and Hindu people and in PE, we will focus on balance on a line, core strength and posture and stance.

Please help your child to be ready to return by practising correct letter and number formation-learning the whole alphabet and numbers to 20+

Spellings and reading books will be sent home during the first week and if you have any questions, please feel free to contact me.

I really look forward to welcoming you back.

Ms McCulloch
