

Welcome to Summer term 2 2026

Well, here it is. The last term in class 2. I can't believe we are almost at the end. What an incredible year it has been. We have learned so many wonderful things and have become skilful writers and mathematicians. This term, our topic is Beside the seaside. We will learn about the geographical features of our coastline, both natural and man-made. In Design Technology, we will plan and make tasty seaside snacks and following our trip to the beach, we will write postcards, a diary and create an acrostic poem. In maths, we will continue our work on time, learning to tell: o'clock, half past, quarters to and past and 5 minute interval times. Our final maths topic will be on statistics and position and direction. We will make tally charts, tables and pictograms and will learn about making whole, half and quarter times, both clockwise and anticlockwise. PE will allow us to practise for sports day and to learn about the physical importance and benefits of regular exercise. As a home reading incentive, the Goody box will return, to reward all children who have read at least 3 times a week, and whose parents have written a comment about how the reading went and any difficulties encountered. Finally, we will begin transition into year 3. So much to look forward to.
